# Village Food Activities

Action in rural Sussex has worked for over a year in four groups of villages in East Sussex with local schools and community groups to promote a more sustainable food system, supporting and funding activities which equip people with the enthusiasm, information and skills to make more use of locally produced food. People in all these areas asked us to compile lists of all the local food producers and outlets in and around their area – the *Really Local Food Directories* are the result. If you use this directory to buy local food, please tell the producer or outlet that you have done so – this will help them and us to know how successful the directories are!
